

REFERENCES FOR THE CREATION OF A NEW OPERATING SYSTEM OKIN GROUP A.S.

OKIN GROUP a.s. is a major provider of support services for businesses in Central and Eastern Europe. The company operates throughout the Czech Republic, Slovakia, Ukraine, Bulgaria, Romania, Poland and Serbia.

Our IT Solution Will Impress You!

PROJECT OBJECTIVE

The aim of the project was to create a new operating system, as the existing operating system did not reflect the required expansion options and the implementation of the new requirements of the client was significantly more demanding. The new system is based on a BPM solution

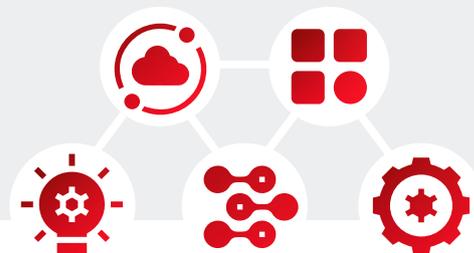

which allows OKIN Group consultants to implement support for in-house and inter-company processes (especially in the area of facility management) and involves users across the company, from the property owner, the operator in the premises, to companies offering facility, service audit or legal services for the property.

FEATURES

- ✓ Application based on BPM engine implementation,
- ✓ easy expandability with new elements,
- ✓ processes extensible while the application is running,
